

Story #1:	As a developer for a different website, I want to be able to access the BOOKEROO API so that I can display information from the BOOKEROO API	Priority	Sprint 5
		Effort	21 Points
As a	developer		
I want	to be able to access the BOOKEROO API		
So that	I can display information from the BOOKEROO API		
Acceptance criteria	Criterion 1: Given that a developer wishes to access the open API And the correct API key has been provided And the developer has a valid Auth token And the request is valid When the API request is made And the website is online And there is no maintenance on the website And the request is in the correct format Then a response is returned to the developer And the information they requested is provided And the success code is returned		
	Criterion 2: Given that a developer wishes to access the open API And an incorrect API key has been provided And the developer has a valid Auth token And the request is valid When the API request is made And the website is online And there is no maintenance on the website And the request is in the correct format Then a response is returned to the developer And the error code is returned		
	Criterion 3: Given that a developer wishes to access the open API And the correct API key has been provided And the developer has an invalid Auth token When the API request is made Then a response is returned to the developer And the error code is returned		
	Criterion 4: Given that a developer wishes to access the open API And an incorrect API key has been provided And the developer has a valid Auth token And the request is valid When the API request is made Then a response is returned to the developer And the error code is returned		

Story #2:	As an Admin, I want to login to my admin account so that I can access my admin profile.	Priority	Sprint 1
		Effort	5 Points
As a	Admin		
I want	to login to my admin account		
So that	I can access my admin profile		
Acceptance criteria	<p>Criterion 1:</p> <p>Given that I'm a logged-out admin</p> <p>And I'm on the sign-in page</p> <p>When I click sign-in</p> <p>And all the fields were entered correctly</p> <p>Then the system signs me in</p> <p>And I can access my admin profile</p> <p>Criterion 2:</p> <p>Given that I'm a logged-out admin</p> <p>And I'm on the sign-in page</p> <p>When I click sign-in</p> <p>And not all the fields were entered correctly</p> <p>Then the incorrect fields are highlighted</p> <p>And there is a message showing the errors</p>		

Story #3:	As an Admin, I want to view all current users, so that I can see all user information.	Priority	Sprint 1
		Effort	5 Points
As a	Admin		
I want	to view all current users		
So that	I can see all user information.		
Acceptance criteria	<p>Criterion 1:</p> <p>Given that I am logged into an admin account</p> <p>When I click view all current users</p> <p>And there are users registered on the site</p> <p>Then I am shown a list of all current users in the system</p> <p>And I can view a summary of their account</p> <p>Criterion 2:</p> <p>Given that I am logged into an admin account</p> <p>When I click view all current users</p> <p>And there are no users registered on the site</p> <p>Then I am shown a message saying there are no users registered</p>		

Story #4:	As an Admin, I want to modify user accounts, so that I can edit user information.	Priority	Sprint 1
		Effort	5 Points
As a	Admin		
I want	to modify user accounts		
So that	I can edit user information		
Acceptance criteria	<p>Criterion 1:</p> <p>Given I am logged into an admin account And I am on the current user’s page And there is a user whose information I wish to edit</p> <p>When I click on the user’s account And edit their information And the new information is valid And click save</p> <p>Then the user’s information is updated in the system And the user is notified of the change</p> <p>Criterion 2:</p> <p>Given I am logged into an admin account And I am on the current user’s page And there is a user whose information I wish to edit</p> <p>When I click on the user’s account And edit their information And the information I entered is not valid</p> <p>Then the incorrect fields are highlighted And there is a message showing the errors</p>		

Story #5:	As an Admin, I want to modify users, so that I can suspend/unsuspend users from their account.	Priority	Sprint 1
		Effort	5 Points
As a	Admin		
I want	to modify users		
So that	I can suspend/unsuspend users from their account.		
Acceptance criteria	<p>Criterion 1:</p> <p>Given I am logged into an admin account And I am on the current user’s page And there is a user who I want to suspend</p> <p>When I click on the user’s account And suspend their account</p> <p>Then the user is suspended from the site And they are notified of the suspension</p> <p>Criterion 2:</p> <p>Given I am logged into an admin account And I am on the current user’s page And there is a user who I want to unsuspend</p> <p>When I click on the user’s account And unsuspend their account</p> <p>Then the user is unsuspended from the site And they are notified of the unsuspension</p>		

Story #6:	As an Admin, I want to add new books, so that new items can be sold.	Priority	Sprint 1
		Effort	13 Points
As a	Admin		
I want	to add new books		
So that	new items can be sold		
Acceptance criteria	<p>Criterion 1:</p> <p>Given I am logged into an admin account And I have a new book I want to add to the system</p> <p>When I click add new book And enter the all the books information And click add book</p> <p>Then the new book is added to the system And I am notified that the book was successfully added</p> <p>Criterion 2:</p> <p>Given I am logged into an admin account And I have a new book I want to add to the system</p> <p>When I click add new book And I do not enter all the books information</p> <p>Then the missing fields are highlighted And there is a message showing the errors</p>		

Story #7:	As an Admin, I want to edit books, so that I can update the correct data.	Priority	Sprint 1
		Effort	5 Points
As a	Admin		
I want	to edit books		
So that	so that I can update the correct data		
Acceptance criteria	<p>Criterion 1:</p> <p>Given I am logged into an admin account And I am on the books page And there is a book in the system I want to edit</p> <p>When I click on the book And edit its information And the new information is valid And click save</p> <p>Then the books information is updated in the system And the admin is notified it was updated successfully</p>		
	<p>Criterion 2:</p> <p>Given I am logged into an admin account And I am on the books page And there is a book in the system I want to edit</p> <p>When I click on the book And don't fill out all required information And click save</p> <p>Then the missing fields are highlighted And there is a message showing the errors</p>		

Story #8:	As an Admin, I want to see the transaction history of an item, so that I know if the right amount of money is being transferred	Priority	Sprint 4
		Effort	3 Points
As a	Admin		
I want	to see the transaction history of an item		
So that	I know if the right amount of money is being transferred		
Acceptance criteria	<p>Criterion 1:</p> <p>Given I am logged into an admin account And that a transaction for an item has occurred And the transaction was successful When the transaction details for the item are requested Then the transaction details for the item are displayed And the status of the order is displayed as successful And the previous transaction history is displayed</p> <p>Criterion 2:</p> <p>Given I am logged into an admin account And that a transaction for an item has occurred And the transaction was unsuccessful When the transaction details for the item are requested Then the transaction details for the item are displayed And the status of the order is displayed as unsuccessful And the previous transaction history is displayed</p>		

Story #9:	As an admin, I want to view the refund requests from users, so that I can see all the information regarding refund requests.	Priority	Sprint 4
		Effort	13 Points
As a	Admin		
I want	to view the refund requests from users		
So that	I can see all the information regarding refund requests.		
Acceptance criteria	<p>Criterion 1:</p> <p>Given I am logged into an admin account And there are refund requests in the system</p> <p>When I click to view refund requests</p> <p>Then all the refund requests are displayed And a summary of the requests are displayed</p> <p>Criterion 2:</p> <p>Given I am logged into an admin account And there are no refund requests in the system</p> <p>When I click to view refund requests</p> <p>Then an error message is displayed</p>		

Story #10:	As an admin, I want to approve refund requests from users, so that I can allow the refund to the processed	Priority	Sprint 4
		Effort	13 Points
As a	Admin		
I want	to approve refund requests from users		
So that	I can allow the refund to the processed		
Acceptance criteria	<p>Criterion 1:</p> <p>Given I am logged into an admin account And is a refund request in the system pending approval</p> <p>When I click on the refund request And approve the refund request</p> <p>Then the user is issued a full refund of their item And the user is notified that a refund has been issued</p> <p>Criterion 2:</p> <p>Given I am logged into an admin account And there are no refund requests in the system</p> <p>When I click to view refund requests</p> <p>Then an error message is displayed</p>		

Story #11:	As an admin, I want to reject refund requests from users, so that I can deny the refund requests	Priority	Sprint 4
		Effort	3 Points
As a	Admin		
I want	want to reject refund requests from users		
So that	I can deny the refund requests		
Acceptance criteria			
	<p>Criterion 1:</p> <p>Given I am logged into an admin account And is a refund request in the system pending approval</p> <p>When I click on the refund request And reject the refund request</p> <p>Then the user is not issued a full refund of their item And the user is notified that a refund has been denied</p> <p>Criterion 2:</p> <p>Given I am logged into an admin account And there are no refund requests in the system</p> <p>When I click to view refund requests</p> <p>Then an error message is displayed</p>		

Story #12:	As an admin, I want to approve a pending registration from a business user so that they can open a new business account.	Priority	Sprint 2
		Effort	3 Points
As a	Admin		
I want	to approve a pending registration from a business user		
So that	they can open a new business account		
Acceptance criteria			
	<p>Criterion 1:</p> <p>Given that I'm an admin user</p> <p>And I'm on the pending registrations page</p> <p>When I view a pending registration from a business user</p> <p>Then I can approve the pending registration</p> <p>And an approval message is shown</p> <p>And I can view other pending registrations</p> <p>And the new account is registered in the database</p> <p>Criterion 2:</p> <p>Given that I'm an admin user</p> <p>And I'm on the pending registrations page</p> <p>When I view a pending registration from a business user</p> <p>Then I can exit viewing the pending registration</p> <p>And I can access the pending registration later</p> <p>And I can view other pending registrations</p> <p>Criterion 3:</p> <p>Given that I'm an admin user</p> <p>And I'm not on the pending registrations page</p> <p>When I access the pending registrations page</p> <p>Then a blank page is shown</p> <p>And a message saying no pending registrations is shown</p>		

Story #13:	As an admin, I want to reject a pending registration from a business user so that they are unable to open a new business account.	Priority	Sprint 2
		Effort	3 Points
As a	Admin		
I want	to reject a pending registration from a business user		
So that	they are unable to open a new business account.		
Acceptance criteria	<p>Criterion 1:</p> <p>Given that I'm an admin user</p> <p>And I'm on the pending registrations page</p> <p>When I view a pending registration from a business user</p> <p>Then I can decline the registrations</p> <p>And the pending registration is removed</p> <p>Criterion 2:</p> <p>Given that I'm an admin user</p> <p>And I'm on the pending registrations page</p> <p>When I view a pending registration from a business user</p> <p>Then I can exit viewing the pending registration</p> <p>And I can access the pending registration later</p> <p>And I can view other pending registrations</p> <p>Criterion 3:</p> <p>Given that I'm an admin user</p> <p>And I'm not on the pending registrations page</p> <p>When I access the pending registrations page</p> <p>Then a blank page is shown</p> <p>And a message saying no pending registrations is shown</p>		

Story #14:	As an admin, I want to sort all pending registrations from business users so I can view the oldest one first.	Priority	Sprint 3
		Effort	2 Points
As a	Admin		
I want	to sort all pending registrations from business users		
So that	I can view the oldest one first.		
Acceptance criteria	<p>Criterion 1: Given that I'm an admin user And I'm on the pending registrations page When click on the sort button And sort by oldest first Then I can view the oldest pending registrations first And action them as needed</p> <p>Criterion 2: Given that I'm an admin user And I'm on the pending registrations page When there are no pending registrations Then I am not presented with a sort option And displayed a message saying there are no pending registrations</p> <p>Criterion 3: Given that I'm an admin user And I'm not on the pending registrations page When I access the pending registrations page Then a blank page is shown And a message saying no pending registrations is shown</p>		

Story #15:	As an Admin, I want to be able to download reports about books in CSV format, so that I can review what books are available on the website	Priority	Sprint 2
		Effort	1 Points
As a	Admin		
I want	to be able to download reports about books in CSV format		
So that	I can review what books are available on the website		
Acceptance criteria	<p>Criterion 1:</p> <p>Given that the user is logged in as admin</p> <p>When the “generate report” button is pressed</p> <p>And the fields are selected for books</p> <p>And there are books in the system</p> <p>Then a CSV report is created for download</p> <p>And the fields include “Book Title”, “Price”, “Items sold”</p>		
	<p>Criterion 2:</p> <p>Given that the user is logged in as admin</p> <p>When the “generate report” button is pressed</p> <p>And the fields are selected for books</p> <p>And there are not books in the system</p> <p>Then a CSV report is created for download</p> <p>And the fields include “Book Title”, “Price”, “Items sold”</p> <p>And there are no books in the CSV</p>		

Story #16:	As an Admin, I want to be able to download reports user transactions in CSV format, so that I can review the sales history of the website	Priority	Sprint 2
		Effort	1 Points
As a	Admin		
I want	to be able to download reports user transactions in CSV format		
So that	I can review the sales history of the website		
Acceptance criteria	<p>Criterion 1:</p> <p>Given that the user is logged in as admin</p> <p>When the “generate report” button is pressed</p> <p>And the user is selected</p> <p>And the user has made transactions</p> <p>Then a CSV report is created for download</p> <p>And information regarding the transactions is included</p>		
	<p>Criterion 2:</p> <p>Given that the user is logged in as admin</p> <p>When the “generate report” button is pressed</p> <p>And the user is selected</p> <p>And the user has made no transactions</p> <p>Then a CSV report is created for download</p> <p>And no information is provided in the report</p>		

Story #17:	As an Admin, I want an option to choose how the CSV files are sorted, so that I can see what the most popular item is.	Priority	Sprint 2
		Effort	1 Point
As a	Admin		
I want	an option to choose how the CSV files are sorted		
So that	I can see what the most popular item is		
Acceptance criteria	<p>Criterion 1:</p> <p>Given that the user is logged in as admin</p> <p>When the user selects to sort the items by popularity</p> <p>And the “generate report” button is pressed</p> <p>And the fields are selected for books</p> <p>And there are books in the system</p> <p>Then a CSV report is created for download</p> <p>And the items are sorted by popularity</p> <p>And the fields include “Book Title”, “Price”, “Items sold”</p>		
	<p>Criterion 2:</p> <p>Given that the user is logged in as admin</p> <p>When the user selects to sort the items by popularity</p> <p>And the “generate report” button is pressed</p> <p>And the fields are selected for books</p> <p>And there are books in the system</p> <p>Then a CSV report is created for download</p> <p>And the fields include “Book Title”, “Price”, “Items sold”</p> <p>And there are no books in the CSV</p>		

Story #18:	As an Admin, I want to approve books to be sold by customers so that their used books are listed for selling	Priority	Sprint 2
		Effort	3 Points
As a	Admin		
I want	to approve books to be sold by customers		
So that	their used books are listed for selling		
Acceptance criteria	<p>Criterion 1:</p> <p>Given that I'm an admin user</p> <p>And I'm on the pending listings page</p> <p>When I view a pending listing</p> <p>Then I can approve the pending listening</p> <p>And the book is now available on the catalogue</p> <p>And the seller's item is now available to buy</p> <p>And I can view other listings</p>		
	<p>Criterion 2:</p> <p>Given that I'm an admin user</p> <p>And I'm not on the pending listings page</p> <p>When I view the pending listings page</p> <p>And there are no pending listings</p> <p>Then an empty page is displayed</p> <p>And a message saying there are no pending listings is displayed</p>		

Story #19:	As an Admin, I want to reject books to be sold by customers so that fake or invalid books are not listed for selling	Priority	Sprint 2
		Effort	3 Points
As a	Admin		
I want	to reject books to be sold by customers		
So that	fake or invalid books are not listed for selling		
Acceptance criteria			
	<p>Criterion 1:</p> <p>Given that I'm an admin user And I'm on the pending listings page</p> <p>When I view a pending listing</p> <p>Then I can reject the pending listening And the seller's item is unavailable to view or buy And I can view other listings</p> <p>Criterion 2:</p> <p>Given that I'm an admin user And I'm not on the pending listings page</p> <p>When I view the pending listings page And there are no pending listings</p> <p>Then an empty page is displayed And a message saying there are no pending listings is displayed</p>		

Story #20:	As an Admin, I want to be able to add stock for a book, so that sellers can add stock to any books in their inventory.	Priority	Sprint 2
		Effort	3 Points
As a	Admin		
I want	to be able to add stock for a book		
So that	sellers can add stock to any books in their inventory.		
Acceptance criteria	<p>Criterion 1:</p> <p>Given that a transaction for an item has occurred And the transaction was successful</p> <p>When the transaction details for the item are requested And the user is an admin</p> <p>Then the transaction details for the item are displayed And the status of the order is displayed as successful And the previous transaction history is displayed</p>		
	<p>Criterion 1:</p> <p>Given that the user is logged in as admin</p> <p>When the “generate report” button is pressed And the fields are selected for books And there are books in the system</p> <p>Then a CSV report is created for download And the fields include “Book Title”, “Price”, “Items sold”</p>		
	<p>Criterion 2:</p> <p>Given that the user is logged in as admin</p> <p>When the “generate report” button is pressed And the fields are selected for books And there are not books in the system</p> <p>Then a CSV report is created for download And the fields include “Book Title”, “Price”, “Items sold” And there are no books in the CSV</p>		

Story #21:	As a business user, I want to be able to register a business account so that I can sell and rent my books to customers.	Priority	Sprint 2
		Effort	8 Points
As a	business user		
I want	to be able to register a business account		
So that	I can sell and rent my books to customers		
Acceptance criteria	<p>Criterion 1:</p> <p>Given that I'm an unregistered business user</p> <p>And I'm on the sign-up page</p> <p>And I've filled out all the required fields</p> <p>When the sign-up button is pressed</p> <p>And all the fields were entered correctly</p> <p>Then a request for a new business user account is made</p> <p>And admin approval is required before the account can be used</p> <p>And a message saying that admin approval is pending is displayed</p>		
	<p>Criterion 2:</p> <p>Given that I'm an unregistered business user</p> <p>And I'm on the sign-up page</p> <p>And I've filled out all the required fields</p> <p>When the sign-up button is pressed</p> <p>And not all fields were entered correctly</p> <p>Then the incorrect fields are highlighted</p> <p>And there is a message showing the errors</p>		

Story #22:	As a business user, I want to be able to login to my business account so that I can access my business profile	Priority	Sprint 1
		Effort	5 Points
As a	business user		
I want	to be able to login to my business account		
So that	I can access my business profile		
Acceptance criteria			
	<p>Criterion 1:</p> <p>Given that I'm a logged-out business user And I'm on the sign-in page</p> <p>When I click sign-in And all the fields were entered correctly</p> <p>Then the system signs me in And I can access my business profile</p>		
	<p>Criterion 2:</p> <p>Given that I'm a logged-out business user And I'm on the sign-in page</p> <p>When I click sign-in And not all the fields were entered correctly</p> <p>Then the incorrect fields are highlighted And there is a message showing the errors</p>		
	<p>Criterion 3:</p> <p>Given that I'm a registered business user And I'm on the sign-in page And an admin has not approved my account registration</p> <p>When I click sign-in</p> <p>Then a message is displayed stating that my account has not been approved And I am unable to access my account</p>		

Story #23:	As a business user, I want to be able to upload an item to sell, so that an admin can approve it.	Priority	Sprint 2
		Effort	13 Points
As a	business user		
I want	to be able to upload an item to sell		
So that	an admin can approve it.		
Acceptance criteria	Criterion 1:		
	<p>Given that a user wants to upload an item to sell</p> <ul style="list-style-type: none">- And their account is active <p>When the user clicks on upload button</p> <ul style="list-style-type: none">- And the user's account isn't blocked <p>Then the system will process the upload</p> <ul style="list-style-type: none">- And after verifying will upload the book- And the user will get a notification about the upload <p>Criterion 2:</p> <p>Given that a user wants to upload an item to sell</p> <ul style="list-style-type: none">- And their account is active <p>When the user clicks on upload button</p> <ul style="list-style-type: none">- And the user's account isn't blocked <p>Then the system will process the upload</p> <ul style="list-style-type: none">- And after verifying will upload the book- And the user will get a notification about the upload		

Story #24:	As a business user, I want to export a CSV of transactions, so that I know if the business is making a profit	Priority	Sprint 2
		Effort	1 Point
As a	business user		
I want	to export a CSV of transactions		
So that	I know if the business is making a profit		
Acceptance criteria	<p>Criterion 1:</p> <p>Given that a transaction for an item has occurred And the transaction was successful</p> <p>When the transaction details for the item are requested And the user is an admin</p> <p>Then the transaction details for the item are displayed And the status of the order is displayed as successful And the previous transaction history is displayed</p>		

Story #25:	As a business user, I want to be able to see all previous transactions, so that I know how often transactions are happening.	Priority	Sprint 1
		Effort	3 Points
As a	Business user		
I want	To be able to see all previous transactions		
So that	I know how often transactions are happening.		
Acceptance criteria	Criterion 1:		
	<div>Given that a transaction for an item has occurred<ul style="list-style-type: none">- And the transaction was successful- And the items haven't been reported for plagiarism or intellectual property theft- And the order details have been emailed to the admin</div> <div>When the transaction details for the item are requested<ul style="list-style-type: none">- And the user is an admin- And the admin has an active account not currently suspended.</div> <div>Then the transaction details for the item are displayed<ul style="list-style-type: none">- And the status of the order is displayed as successful- And the previous transaction history is displayed- And there is an option to download the transaction history as a CSV</div>		

Story #26:	As a business user, I want to see the current transactions being processed, so that I know if there are many orders going through.	Priority	Sprint 3
		Effort	8 Points
As a	Business user		
I want	To see the current transactions being processed		
So that	I know if there are many orders going through.		
Acceptance criteria	Criterion 1:		
	<div>Given that a transaction for an item has occurred<ul style="list-style-type: none">- And the transaction was successful- And a transaction ID is issued for the order- And the user hasn't requested a refund within 24hrs</div> <div>When the transaction details for the item are requested<ul style="list-style-type: none">- And the user is an admin- And the admin is not suspended from the account</div> <div>Then the transaction details for the item are displayed<ul style="list-style-type: none">- And the status of the order is displayed as successful- And the previous transaction history is displayed</div>		

Story #27:	As a business user, I want to see the total amount of transactions, so that I know if I am selling many books.	Priority	Sprint 3
		Effort	8 Points
As a	Business user		
I want	To see the total amount of transactions		
So that	I know if I am selling many books.		
Acceptance criteria	<p>Criterion 1:</p> <p>Given that a the business user wants to see transactions</p> <ul style="list-style-type: none">- And the transactions have been successful in the past- And the business user is on the dashboard page <p>When the transaction details for the past sales are requested</p> <ul style="list-style-type: none">- And the user is an business user- And the users' account isn't suspended <p>Then the transaction details are displayed</p> <ul style="list-style-type: none">- And the information is available for download as a CSV <p>Criterion 2</p> <p>Given that a the business user wants to see transactions</p> <ul style="list-style-type: none">- And the transactions haven't successful in the past- And the business user is on the dashboard page <p>When the transaction details for the past sales are requested</p> <ul style="list-style-type: none">- And the user is an business user- And the users' account isn't suspended <p>Then the failed transactions details are displayed</p> <ul style="list-style-type: none">- And the information is available for download as a CSV		

Story #28:	As a business user, I want to adjust the amount of stock for an item, so that item stock can be increased or decreased.	Priority	Sprint 3
		Effort	8 Points
As a	business user		
I want	to adjust the amount of stock for an item		
So that	item stock can be increased or decreased.		
Acceptance criteria	Criterion 1:		
	Given that the business user wants to alter stock		
	<ul style="list-style-type: none">- And the business user is on the add stock quantity section- And the business user has entered all other details like book name, genre, page count, author(s)		
	When the business user adds enters the stock quantity		
	<ul style="list-style-type: none">- The system will check if a number was added stock quantity- And the quantity is not below 0 or greater than a certain number determined by the system		
	Then the system will update the stock quantity		
	<ul style="list-style-type: none">- And a message will appear to show quantity was updated		
	Criterion 2		
	Given that the business user wants to alter stock		
	<ul style="list-style-type: none">- And the business user is on the add stock quantity section- And the business user has entered all other details like book name, genre, page count, author(s)		
When the business user adds enters a text as stock quantity			
<ul style="list-style-type: none">- The system will print an error message to re-enter number			
Then the system will update the stock quantity if the correct data type is added			

Story #29:	As a business user, I want to be able to edit the books I am managing, so that I can fix mistakes when originally created the book page.	Priority	Sprint 1
		Effort	5 Points
As a	business user		
I want	to be able to edit the books I am managing		
So that	I can fix mistakes when originally created the book page.		
Acceptance criteria	Criterion 1:		
	Given that a business user wants to manage books they are editing <ul style="list-style-type: none">- And the book is public		
	When the business user clicks edit book <ul style="list-style-type: none">- And the book hasn't been reported		
	Then the system will request the business user to upload a new book <ul style="list-style-type: none">- And the book will replace the older version- And there will be label on the newer version title-head that says edited		
	Criterion 2		
	Given that a business user wants to edit book <ul style="list-style-type: none">- And the book isn't public		
	When the business user clicks edit book <ul style="list-style-type: none">- And the book is in draft mode		
	Then the system will request the business user to publish the book or upload a new version <ul style="list-style-type: none">- And the book will replace the older version- And there will be no edited label title		

Story 30:	As a business user, I want to know how much inventory I have left on an item, so that I can decide if I need to print more books.	Priority	Sprint 3
		Effort	5 Points
As a	business user		
I want	to know how much inventory I have left on an item		
So that	I can decide if I need to print more books.		
Acceptance criteria	Criterion 1:		
	<p>Given that a business user wants to know the inventory on books</p> <ul style="list-style-type: none">- And the book is public <p>When the business user clicks on manage store</p> <ul style="list-style-type: none">- And the book hasn't been reported- And the stock quantity is low. (This is determined by the seller) <p>Then the system will alert the seller to print more books</p> <ul style="list-style-type: none">- And there will be a red label next to the name of the book with the book count <p>Criterion 2</p> <p>Given that a business user wants to know the inventory on a certain book</p> <ul style="list-style-type: none">- And the book public <p>When the business user clicks on manage store</p> <ul style="list-style-type: none">- And the book hasn't been reported- And the stock quantity is medium. (This is determined by the seller) <p>Then the system will not alert the seller to print more books</p> <ul style="list-style-type: none">- And there will be an orange label next to the name of the book with the book count		

Story #31:	As a customer, I want to be able to register a user account so that I can buy, share, or sell used books.	Priority	Sprint 1
		Effort	8 Points
As a	customer		
I want	to be able to register a user account		
So that	I can buy, share, or sell used books		
Acceptance criteria	<p>Criterion 1:</p> <p>Given that I'm an unregistered customer And I'm on the sign-up page And I've filled out all the required fields</p> <p>When the sign-up button is pressed And all the fields were entered correctly</p> <p>Then an account is created in the database And there is a message confirming the signup And I can buy, share or sell used books</p> <p>Criterion 2:</p> <p>Given that I'm an unregistered customer And I'm on the sign-up page And I've filled out all the required fields</p> <p>When the sign-up button is pressed And not all fields were entered correctly</p> <p>Then the incorrect fields are highlighted And there is a message showing the errors</p>		

Story #32:	As a customer, I want to be able to search for books so that I can view information about the book.	Priority	Sprint 1
		Effort	5 Points
As a	customer		
I want	to be able to search for books		
So that	I can view information about the book		
Acceptance criteria	<p>Criterion 1:</p> <p>Given that I'm a logged-in customer</p> <p>When I click on Search</p> <p>Then the search page is displayed</p> <p>And the entire catalogue is shown</p> <p>And a search bar is available for use</p> <p>Criterion 2:</p> <p>Given that I'm a logged-out customer</p> <p>When I click on Search</p> <p>Then a limited catalogue will be displayed</p> <p>And signing in will be prompted</p> <p>And the search function will be unavailable</p>		

Story #33:	As a customer, I want to be able to search for books in the catalogue by the name of the author so that I can find books written by a specific author	Priority	Sprint 2
		Effort	3 Points
As a	customer		
I want	to be able to search for books in the catalogue by the name of the author		
So that	I can find books written by a specific author		
Acceptance criteria	Criterion 1: Given that I'm a logged-in customer And I'm on the search page When I search for a specific author's name And there are books in the database written with the author's name Then books that are written with the author's name are displayed And the results are not case sensitive And I can search again And I can click on each item to view more information about it		
	Criterion 2: Given that I'm a logged-in customer And I'm on the search page When I search for a specific author's name with some letters missing And there are books in the database written with the author's name Then books that are written with the author's name are displayed And the results are not case sensitive And I can search again And I can click on each item to view more information about it		
	Criterion 3: Given that I'm a logged-in customer And I'm on the search page When I search for a specific author's name And there are no books in the database written with the author's name Then a blank page is displayed And a message saying there are no search results is displayed And I can search again		

Story #34:	As a customer, I want to be able to search for books in the catalogue by the title of the book so that I can find books with a specific title or series title	Priority	Sprint 2
		Effort	3 Points
As a	customer		
I want	to be able to search for books in the catalogue by the name of the book		
So that	I can find books with a specific name or series name		
Acceptance criteria	Criterion 1: Given that I'm a logged-in customer And I'm on the search page When I search for a specific book's title And there are books in the database written with the book's title Then books that are written with the book's title are displayed And the results are not case sensitive And I can search again And I can click on each item to view more information about it		
	Criterion 2: Given that I'm a logged-in customer And I'm on the search page When I search for a specific book's title with some letters missing And there are books in the database written with the book's title Then books that are written with the book's title are displayed And the results are not case sensitive And I can search again And I can click on each item to view more information about it		
	Criterion 3: Given that I'm a logged-in customer And I'm on the search page When I search for a specific book's title And there are no books in the database written with the book's title Then a blank page is displayed And a message saying there are no search results is displayed And I can search again		

Story #35:	As a customer, I want to be able to search for books in the catalogue by the book's ISBN so that I can find books with a specific ISBN	Priority	Sprint 2
		Effort	3 Points
As a	customer		
I want	As a customer, I want to be able to search for books in the catalogue by the name of the ISBN		
So that	I can find books with a specific ISBN		
Acceptance criteria	<p>Criterion 1:</p> <p>Given that I'm a logged-in customer And I'm on the search page</p> <p>When I search for a specific book's ISBN And there are books in the database written with the book's ISBN</p> <p>Then books that are written with the book's ISBN are displayed And I can search again And I can click on each item to view more information about it</p> <p>Criterion 2:</p> <p>Given that I'm a logged-in customer And I'm on the search page</p> <p>When I search for a specific book's ISBN with some numbers missing And there are books in the database written with the book's ISBN</p> <p>Then books that are written with the book's ISBN are displayed And I can search again And I can click on each item to view more information about it</p> <p>Criterion 3:</p> <p>Given that I'm a logged-in customer And I'm on the search page</p> <p>When I search for a specific author's name And there are no books in the database written with the book's ISBN</p> <p>Then a blank page is displayed And a message saying there are no search results is displayed And I can search again</p>		

Story #36:	As a customer, I want to be able to search for books in the catalogue by the name of the publisher so that I can find books that were published by a specific publisher	Priority	Sprint 3
		Effort	3 Points
As a	customer		
I want	to be able to search for books in the catalogue by the name of the publisher		
So that	I can find books that were published by a specific publisher		
Acceptance criteria	Criterion 1:		
	Given that I'm a logged-in customer And I'm on the search page		
	When I search for a specific publisher's name And there are books in the database written with the publisher's name		
	Then books that are written with the publisher's name are displayed And the results are not case sensitive And I can search again And I can click on each item to view more information about it		
Acceptance criteria	Criterion 2:		
	Given that I'm a logged-in customer And I'm on the search page		
	When I search for a specific publisher's name with some letters missing And there are books in the database written with the publisher's name		
	Then books that are written with the publisher's name are displayed And the results are not case sensitive And I can search again And I can click on each item to view more information about it		
Acceptance criteria	Criterion 3:		
	Given that I'm a logged-in customer And I'm on the search page		
	When I search for a specific publisher's name And there are no books in the database written with the publisher's name		
	Then a blank page is displayed And a message saying there are no search results is displayed And I can search again		

Story #37:	As a customer, I want to be able to filter my search results so that I can view only new books for sale.	Priority	Sprint 2
		Effort	3 Points
As a	customer		
I want	to be able to filter my search results		
So that	I can view only new books for sale.		
Acceptance criteria	<p>Criterion 1:</p> <p>Given that the filter is on for sorting new Books is selected</p> <p>When the search button is pressed</p> <p>And there are new books in the system</p> <p>Then A list of books that have not been sold before are shown</p> <p>Criterion 2:</p> <p>Given that the filter is on for sorting new Books is selected</p> <p>When the search button is pressed</p> <p>And there are not new books in the system</p> <p>Then there is a message displaying no items in search</p> <p>And there is a request to research with different filters</p>		

Story #38:	As a customer, I want to be able to filter my search results so that I can view only used books for sale.	Priority	Sprint 2
		Effort	3 points
As a	customer		
I want	to be able to filter my search results		
So that	I can view only used books for sale.		
Acceptance criteria	<p>Criterion 1:</p> <p>Given that the filter is on for sorting used Books is selected</p> <p>When the search button is pressed</p> <p>And there are used books in the system</p> <p>Then A list of second hand books are shown</p> <p>Criterion 2:</p> <p>Given that the filter is on for sorting used Books is selected</p> <p>When the search button is pressed</p> <p>And there are not used books in the system</p> <p>Then there is a message displaying no items in search</p> <p>And there is a request to research with different filters</p>		

Story #39:	As a customer, I want to be able to sort my search results so that my search query starts from the lowest cost item.	Priority	Sprint 2
		Effort	3 Points
As a	customer		
I want	to be able to sort my search results		
So that	my search query starts from the lowest cost item.		
Acceptance criteria			
	Criterion 1: Given the search button is pressed When the filter is set to for sorting by lowest cost is selected And there are books in the system Then A list of books are shown from lowest cost ascending		
	Criterion 2: Given the search button is pressed When the filter is set to for sorting by lowest cost is selected And there are no books in the system Then there is a message displaying no items in search And there is a request to research with different filters		
	Criterion 3: Given the search button is pressed When there is no filter And there are books in the system Then A list of books are shown from the default setting		

Story #40:	As a customer, I want to be able to sort my search results so that my search query is ordered alphabetically.	Priority	Sprint 2
		Effort	3 Points
As a	customer		
I want	to be able to sort my search results		
So that	my search query is ordered alphabetically.		
Acceptance criteria	<p>Criterion 1: Given the search button is pressed When the filter is set to sorting alphabetically is selected And there are books in the system Then A list of books are shown from A-Z</p> <p>Criterion 2: Given the search button is pressed When the filter is set to sorting alphabetically is selected And there are no books in the system Then there is a message displaying no items in search And there is a request to research with different filters</p> <p>Criterion 3: Given the search button is pressed When there is no filter And there are books in the system Then A list of books are shown from the default setting</p>		

Story #41:	As a customer, I want to check-out my shopping cart with PayPal, so I can finish my purchase	Priority	Sprint 4
		Effort	21 Points
As a	customer		
I want	to check-out my shopping cart with PayPal		
So that	I can finish my purchase		
Acceptance criteria	Criterion 1: Given that the user is logged in And there are items in the shopping cart When the user has entered correct payment details And has the funds needed in their account And has pressed the “pay” button And the payment is correctly processed Then a message informs the user the payment was correctly processed And the transaction details are created in the account And all orders are processed		
	Criterion 2: Given that the user is logged in And there are items in the shopping cart When the user has entered incorrect payment details And has the funds needed in their account And has pressed the “pay” button Then a message informs the user the payment could not be processed And the same message informs that the payment details are incorrect		
	Criterion 3: Given that the user is logged in And there are items in the shopping cart When the user has entered correct payment details And does not have the funds needed in their account And has pressed the “pay” button Then a message informs the user the payment could not be processed And the same message informs there are not enough funds		
	Criterion 4: Given that the user is logged in And there are items in the shopping cart When the user has entered correct payment details And has the funds needed in their account And has pressed the “pay” button And the payment is correctly processed Then a message informs the user the payment could not be processed And the same message informs to try again later		

Story #42:	As a Customer, I want to be able to view my transaction history, so that I can see all my recently bought books	Priority	Sprint 1
		Effort	3 Points
As a	customer		
I want	to be able to view my transaction history		
So that	I can see all my recently bought books		
Acceptance criteria	Criterion 1:		
	Given the user is logged in		
	When the transaction details are requested		
	And the user has transactions with their account		
Acceptance criteria	Then the transaction history is displayed		
	Criterion 2:		
	Given the user is logged in		
	When the transaction details are requested		
Acceptance criteria	And the user does not have transactions with their account		
	Then there is a message displaying that no transactions have happened		
	Criterion 2:		
	Given the user is logged in		
Acceptance criteria	When the transaction details are requested		
	And the user has more than 20 transactions with their account		
	Then the transaction history is showed up to 20		
	And there is a “next page” button, to see the next 20 transactions		

Story #43:	As a Customer, I want to be able to view my order status, so that I can see the current status of my order	Priority	Sprint 2
		Effort	3 Points
As a	customer		
I want	to be able to view my order status		
So that	I can see the current status of my order		
Acceptance criteria	Criterion 1:		
	Given that a transaction for an item has occurred		
	And the transaction was successful		
	When the transaction details for the item are requested		
	And the user has the completed the transaction on their account		
	Then the transaction details for the item are displayed		
	And the status of the order is displayed as successful		
	And the previous transaction history is displayed		
	Criterion 2:		
	Given that a transaction for an item has occurred		
And the transaction was unsuccessful			
When the transaction details are requested			
And the user has the completed the transaction on their account			
Then the details of the attempted transaction are displayed			
And the status of the order is displayed as unsuccessful			
And the previous transaction history is displayed			
Criterion 3:			
Given that a transaction for an item has occurred			
And the transaction is currently pending			
When the transaction details are requested			
And the user has the completed the transaction on their account			
Then the details of the attempted transaction are displayed			
And the status of the order is displayed as pending			
And the previous transaction history is displayed			
Criterion 4:			
Given that an item has been declined			
And a refund has not been given			
When the transaction details are requested			
And the user has the completed the transaction on their account			
Then the declined item will be shown			
And a processing refund message will be shown			
Criterion 5:			
Given that an item has been declined			

	<p>And a refund has been given</p> <p>When the transaction details are requested</p> <p>And the user has the completed the transaction on their account</p> <p>Then the declined item will be shown</p> <p>And a message showing the refund details</p>
--	---

Story #44:	As a customer, I want to add a review to a user who sold an item to me, so that I can rate the seller.	Priority	Sprint 2
		Effort	5 Points
As a	customer		
I want	to add a review to a user who sold an item to me		
So that	I can rate the seller.		
Acceptance criteria	<p>Criterion 1: Given that the user is logged in When there is a rating selected And there are text in the review section And the “add review” button is pressed Then the text review is added to the user account And the user rating value is updated And the amount of ratings increase by one</p> <p>Criterion 2: Given that the user is logged in When a rating is not selected And there are text in the review section And the “add review” button is pressed Then there is a message informing the user that the a rating is needed to add a review</p> <p>Criterion 3: Given that the user is logged in When there is a rating selected And there is no text in the review section And the “add review” button is pressed Then the user rating value is updated And the amount of ratings increase by one</p>		

Story #45:	As a Customer, I want to create an account so that I can peruse and purchase items	Priority	Sprint 1
		Effort	8 Points
As a	customer		
I want	to create an account		
So that	I can peruse and purchase items		
Acceptance criteria	Criterion 1:		
	Given that the user is on the sign up page		
	And the required fields were entered		
	When the sign up button has been pressed		
	And all fields were entered correctly		
	And there is a connection to the database		
	Then an account is created in the database		
	And there is a message confirming the signup		
	Criterion 2:		
	Given that the user is on the sign up page		
	And the required fields were entered		
	When the sign up button has been pressed		
	And not all fields were entered correctly		
	Then the fields not correct are highlighted		
	And there is a message showing the errors		
	Criterion 3:		
	Given that the user is on the sign up page		
	And the required fields were entered		
	When the sign up button has been pressed		
	And all fields were entered correctly		
	And there is not a connection to the database		
	Then a message displaying there is an issue with connecting to the database is displayed		

Story #46:	As a customer, I want to add a review to a book I purchased, so that I can share my opinion.	Priority	Sprint 2
		Effort	5 Points
As a	customer		
I want	to add a review to a book I purchased		
So that	I can share my opinion.		
Acceptance criteria	<p>Criterion 1:</p> <p>Given that the user is logged in</p> <p>When there is a rating selected</p> <p>And there are text in the review section</p> <p>And the “add review” button is pressed</p> <p>Then the text review is added to the book</p> <p>And the book rating value is updated</p> <p>And the amount of ratings increase by one</p> <p>Criterion 2:</p> <p>Given that the user is logged in</p> <p>When a rating is not selected</p> <p>And there are text in the review section</p> <p>And the “add review” button is pressed</p> <p>Then there is a message informing the user that the a rating is needed to add a review</p> <p>Criterion 3:</p> <p>Given that the user is logged in</p> <p>When there is a rating selected</p> <p>And there is no text in the review section</p> <p>And the “add review” button is pressed</p> <p>Then the book rating value is updated</p> <p>And the amount of ratings increase by one</p>		

Story #47:	As a customer, I want to cancel my order within 2 hours of purchasing, so that I can get a full refund.	Priority	Sprint 5
		Effort	13 Points
As a	customer		
I want	to cancel my order within 2 hours of purchasing		
So that	I can get a full refund.		
Acceptance criteria			
	<p>Criterion 1: Given that a transaction for an item has occurred And the user is logged in When it is within 2 hours of the transaction occurring And the user has pressed the “refund” button And the user has pressed the “confirm refund” button Then the amount of money taken from the account is put back in And the transaction status is set to “refunded”</p> <p>Criterion 2: Given that a transaction for an item has occurred And the user is logged in When it is within 2 hours of the transaction occurring And the user has pressed the “refund” button And the user has rejected the “confirm refund” button Then the user is taken back to the order status page</p> <p>Criterion 3: Given that a transaction for an item has occurred And the user is logged in When it is over 2 hours of the transaction occurring And the user has pressed the “refund” button And the user has rejected the “confirm refund” button Then the item is refunded but the shipping cost is paid And the transaction status is set to “refunded”</p>		

Story #48:	As a customer, I want to put items to my shopping cart, so that I can buy them later	Priority	Sprint 4
		Effort	13 Points
As a	customer		
I want	to put items to my shopping cart		
So that	I can buy them later		
Acceptance criteria	<p>Criterion 1:</p> <p>Given that the user is on an item page</p> <p>When the user is logged in</p> <p>And there is sufficient stock of the item</p> <p>And the “add to cart” button is pressed</p> <p>Then the items are added to the users cart</p> <p>Criterion 2:</p> <p>Given that the user is on an item page</p> <p>When the user not logged in</p> <p>And the “add to cart” button is pressed</p> <p>Then the user prompted to log in to add items</p> <p>Criterion 3:</p> <p>Given that the user is on an item page</p> <p>When the user is logged in</p> <p>And there is not sufficient stock of the item</p> <p>And the “add to cart” button is pressed</p> <p>Then there is a message informing the user the item cannot be purchased</p>		

Story #49:	As a customer, I want to remove items from my shopping cart, so that I can avoid buying items I don't want.	Priority	Sprint 4
		Effort	13 Points
As a	customer		
I want	to remove items from my shopping cart		
So that	I can avoid buying items I don't want.		
Acceptance criteria	<p>Criterion 1:</p> <p>Given there are items in the shopping cart And the user is logged in</p> <p>When the "unselect" button next to an item is pressed</p> <p>Then the item is removed from the shopping cart And there is a message confirming the removal of item</p>		

Story #50:	As a customer, I want to book items in advance, so that I can get the book later when it is available.	Priority	Sprint 5
		Effort	21 Points
As a	customer		
I want	to book items in advance		
So that	I can get the book later when it is available		
Acceptance criteria			
	<p>Criterion 1:</p> <p>Given that an item can be booked in advance And the user is logged in</p> <p>When the user pays for an item And the transaction is successful And the book comes available on the day it is proposed to be</p> <p>Then the book is given to the user And the transaction is updated to “completed”</p>		
	<p>Criterion 2:</p> <p>Given that an item can be booked in advance And the user is logged in</p> <p>When the user pays for an item And the transaction is unsuccessful</p> <p>Then a message informs the user the transaction was unsuccessful And the payment is returned</p>		
	<p>Criterion 3:</p> <p>Given that an item can be booked in advance And the user is logged in</p> <p>When the user pays for an item And the transaction is successful And the does not book coms available on the day it is proposed to be</p> <p>Then the payment is refunded And the transaction is updated to “refunded” And the user is alerted by email</p>		

Story #51:	As a customer, I want to view the details of the book I am thinking of buying, so that I can be more informed on my decision.	Priority	Sprint 1
		Effort	5 Points
As a	Customer		
I want	To view the details of the book I am thinking of buying		
So that	I can be more informed on my decision.		
Acceptance criteria	<p>Criterion 1:</p> <p>Given that a user wants to view specifics of the book</p> <ul style="list-style-type: none">- And the user a member <p>When the user clicks on book title</p> <ul style="list-style-type: none">- And the book is present <p>Then the system will present a summary of the book in read more section</p> <ul style="list-style-type: none">- And present the author details, genre of book, reviews, ratings, etc below the book <p>Given that a user wants to view specifics of the book</p> <ul style="list-style-type: none">- And the user a member <p>When the user clicks on book title</p> <ul style="list-style-type: none">- And the book is not present <p>Then the system will prompt and error message saying book is unavailable</p>		

Story #52:	As a customer, I want to view my profile page so that I can change my password	Priority	Sprint 2
		Effort	5 Points
As a	Customer		
I want	To view my profile page		
So that	I can change my password		
Acceptance criteria	Criterion 1:		
	<div>Given that a user wants to change their password<ul style="list-style-type: none">And the user is logged inAnd the user is on the profile settings page</div> <div>When the user clicks on change password<ul style="list-style-type: none">And the user enters the correct password</div> <div>Then the system prompts the user to enter the new password<ul style="list-style-type: none">And two text boxes will appear to change their passwordAnd an email will be sent to the registrar’s email to confirm the change of password</div>		
Acceptance criteria	Criterion 2:		
	<div>Given that a user wants to change their password<ul style="list-style-type: none">And the user is logged inAnd the user is on the profile settings page</div> <div>When the user clicks on change password<ul style="list-style-type: none">And they enter a wrong password</div> <div>Then the system prompts the user to re-enter the correct password<ul style="list-style-type: none">And an email will be sent to the registrar’s email to confirm the change of password</div>		

Story #53:	As a customer, I want to be able to sign in with Twitter, so that I do not have to make a new account.	Priority	Sprint 3
		Effort	3 Points
As a	Customer		
I want	To be able to sign in with Twitter		
So that	I do not have to make a new account.		
Acceptance criteria	Criterion 1:		
	Given that a user wants to sign up with twitter <ul style="list-style-type: none">- And the user is not a member		
	When the user clicks on sign up with twitter <ul style="list-style-type: none">- And the adapter pattern is implemented- And the twitter API is active- And the token is accepted by twitter		
	Then the system will register the user data <ul style="list-style-type: none">- And send an email confirming their registration details.		
	Criterion 1:		
	Given that a user wants to sign up with twitter <ul style="list-style-type: none">- And the user is a member		
	When the user clicks on sign up with twitter <ul style="list-style-type: none">- And the adapter pattern is implemented- And the twitter API is active- And the token is accepted by twitter		
	Then the system will print out user already exists message to the user <ul style="list-style-type: none">- And send an email to the existing user to notify them.		

Story #54:	As a customer, I want to be able to filter my search, so that I can find the items I am interested in more easily.	Priority	Sprint 2
		Effort	3 Points
As a	Customer		
I want	To be able to filter my search		
So that	I can find the items I am interested in more easily.		
Acceptance criteria	Criterion 1:		
	Given that a user wants to search		
	- And the user is logged in		
	When the user clicks on search		
	Then custom filter search will apply based on the user's preferences		
	Criterion 2:		
	Given that a user wants to search		
	- And the user is not logged in		
	When the user clicks on delete account		
	Then search will apply a basic filter		

Story #55:	As a customer, I want to be able to press a button to share a book to social media, so that I can let people know my opinion.	Priority	Sprint 3
		Effort	13 Points
As a	Customer
