Heyyyy

23/07 4:36 pm  
Hey!

Alexander Alol 23/07 4:36 pm  
ayoo

Shannon Dann 23/07 4:36 pm  
hey

Alli Gong 23/07 4:37 pm  
it's so hard to form a team like this. what a mess

Alexander Alol 23/07 4:37 pm  
its just a mess of words, you cant follow anything

Shannon Dann 23/07 4:37 pm  
yeah covid really makes forming a group a struggle

23/07 4:37 pm  
Yeah making groups online is a pain

Do we want to grab another member?

We can have 5 people right

Alexander Alol 23/07 4:38 pm  
yeye

4 seems alright though

Alli Gong 23/07 4:38 pm  
i am ok with 4 or 5

23/07 4:38 pm  
I just asked Aditya since he's in the 2.30 ops tute

Alexander Alol 23/07 4:39 pm  
sweet

Jared Song added Aditya Vadgama to the chat and shared all chat history.

Alexander Alol 23/07 4:40 pm  
should we confirm our group?

23/07 4:40 pm  
yeah?

Do we just write it in the chat or email him

Alli Gong 23/07 4:41 pm  
everyone give me their name and student id, I will send the email

Alexander Alol 23/07 4:41 pm  
email him im pree sure

are the assignment specs out yet?

Aili Gong 23/07 4:45 pm  
not yet

Shannon Dann 23/07 4:46 pm  
ah okay, i assume its gonna be similar to Software Engineering Fundamentals

Alexander Alol 23/07 4:46 pm  
same

surely not as crappily put together though

Shannon Dann 23/07 4:47 pm  
yeah i hatted that course

Aditya Vadgama 23/07 4:47 pm  
Hi all

Alexander Alol 23/07 4:47 pm  
hey man!

23/07 4:47 pm

That was the worst subject i've ever done in my life

Alexander Alol 23/07 4:47 pm  
absolute worse of the entire stream

Aditya Vadgama 23/07 4:47 pm  
Really hoping for SEPT to be much better than SEPT

Aili Gong 23/07 4:47 pm 🤔 1  
oh qod, i typed my id wrong 🤔

Aditya Vadgama 23/07 4:47 pm  
SEF haha

Alexander Alol 23/07 4:47 pm  
seems to be on track to be

Edited

just wondering what everyones strengths are with, Aili said before shes done a bit with react. Personally, I've done shit tonnes of java and backend stuff. on my side im trying to get some apps on the app store, so ive done a variety of programming stuff.

23/07 4:53 pm

I've done mostly backend stuff too with FP and APT, have done some frontend with RAD but not much else

Aditya Vadgama 23/07 4:54 pm  
Hey guys, I'm genuinely sorry but I'm getting into another group. My humble apologies, thanks for having me.

23/07 4:54 pm

No worries, good luck

Aili Gong 23/07 4:56 pm  
Can you let Redowan know

Shannon Dann 23/07 4:56 pm  
yeah my experience is along the same lines as jared

Alli Gong 23/07 4:57 pm  
looks like i am going to have the front-end part 😊

Alexander Aloï 23/07 4:59 pm  
i made a website for my mum with javascript and php so i can do a bit

23/07 5:00 pm

I'm very keen to help out with front-end stuff if i can though

I was going to do web programming as an elective

Alexander Aloï 23/07 5:01 pm  
i think were mostly doing full stack tbh

Alli Gong 23/07 5:01 pm  
although i got 90+ for both java course, never touch java since then

23/07 5:02 pm

Does anyone have any experience with using Jira?

Alexander Aloï 23/07 5:02 pm  
nup

Shannon Dann 23/07 5:03 pm  
nah, seems like a tool for doing scrums or something

Aditya Vadgama left the chat.

Shannon Dann 23/07 5:04 pm  
aditya will be missed

Alexander Aloï 23/07 5:05 pm  
rip my man

ill try get a jira sorted out

Shannon Dann 23/07 5:09 pm  
do we wanna create a git now or wait till the assignment gets released?

Alli Gong changed the group name to SEPT - HD Group.

Alexander Aloï 23/07 5:10 pm  
might as well make it now

Alli Gong 23/07 5:11 pm  
btw guys, i have day time job, so will be only available for meetings after dinner time. Sorry for any inconvenience!

23/07 5:12 pm

I can't work right now because of the lockdown but i'd expect something similar once lockdown is over

Shannon Dann 23/07 5:12 pm  
yeah no worries, my sleep schedule is pretty whack atm so im mainly available around then too

23/07 5:12 pm

But I'm always on uni campus on Fridays for tutes and pracs

Alexander Aloï 23/07 5:13 pm  
im available anytime anyday just quit 3 jobs lmao

23/07 5:13 pm

also you guys should have received an email for jira

Shannon Dann 23/07 5:14 pm  
i play volleyball monday, tuesday and thursday nights so might not be available then depending on the time

Alexander Aloï 23/07 5:19 pm  
Shannon Dann do you want to make the git or should i?

26/07 2:43 pm  
Hey everyone, the assignment is out: when are you all free for a meeting?

Shannon Dann 26/07 2:44 pm  
Any time in the afternoon/evening

26/07 2:46 pm  
Shannon Dann tonight? or is that for your whole week

You must have frequent commits during each sprint, or whenever you add or change the code. There will be no progress mark if you add the whole code once before the due date in one large commit or push. You will receive Fail or minimum mark for the whole assignment if you won't follow the scrum implementation process (incremental and through multiple iterations).

Each week, your tutorial/lab session will involve a Scrum meeting, including a short (10-12 min) presentation to the "client" (i.e., your tutor). From Week 3, individual and group progress marks will be awarded. Only team members present at the team presentation qualify for the weekly progress mark(s).

We also need to present to our client each week apparently to make sure we're up to date with everything

Shannon Dann 26/07 2:53 pm 🙌 1  
Whole week should be good

Alli Gong 26/07 2:56 pm 🙌 1

Alexander Aloï 29/07 2:30 pm  
sure! what time suits you? 4:30?

Shannon Dann 29/07 2:32 pm  
I'm going to be practicing volleyball around that time, later would work for me tho

Alli Gong 29/07 2:33 pm  
how about 8:30

ye looks good, maybe just add that the user must have an admin account to each

Shannon Dann 30/07 6:00 pm

Looks good to me

30/07 6:01 pm

Alexander Aloï I was thinking that shouldn't be required since the user story is from the pov of an admin user anyway

Reckon I should just state it anyway?

Alexander Aloï 30/07 6:01 pm

might as well

just add to the when "and logged in with admin account"

cause it covers if they aren't logged in lmao

its kinda obvious but no harm in adding

30/07 6:02 pm

Yeah

I mean if the user isn't an admin they shouldn't be allowed to see the transaction history

Alexander Aloï 30/07 6:03 pm

Yeah

Tuesday, 3 August 2021

 Carl Karama 3/08 7:12 pm  
I just needed a bit of guidance. Say I've been assigned User Story 18, 17, 16, 15, 14 & 13 do I create them based on that same number in the product backlog using the template of of the user stories?

 Alexander Aloi 3/08 8:29 pm 👍 1  
ye thats what im doing

3/08 11:21 pm 👍 1  
Yes that's right

3/08 11:22 pm 👍 1  
Then add it to the user stories template doc in our teams files

Wednesday, 4 August 2021

 Alexander Aloi 4/08 12:54 pm  
think we need a better place for our files, the spec sheet specifies Office365 online for documentation, so ive made a sharepoint folder for us to chuck everything into  
  
[https://rmitteduau-my.sharepoint.com/:f/g/personal/s3842524\\_student\\_rmit\\_edu\\_au/EvvM-mh48u5DvHz8RDf1\\_VgB3X1CAtx2yg8tR-icknMHhg?e=p6Hn0z](https://rmitteduau-my.sharepoint.com/:f/g/personal/s3842524_student_rmit_edu_au/EvvM-mh48u5DvHz8RDf1_VgB3X1CAtx2yg8tR-icknMHhg?e=p6Hn0z)  
  
tell me if that works

 Shannon Dann 4/08 12:55 pm  
I thought everything in teams is done through office365

 Alexander Aloi 4/08 12:55 pm  
ye it is

 Shannon Dann 4/08 12:56 pm  
Cuz teams is apart of the 365 package

 Alexander Aloi 4/08 12:56 pm  
yeah i just think it might get a bit hard to navigate the more we do

 Shannon Dann 4/08 12:56 pm  
Teams interfaces with most office products

 Alexander Aloi 4/08 12:58 pm  
yeah, im seeing if i can make a symbolic link between sharepoint and teams  
  
so you can edit stuff wherever, its just about making the files easier to find

 Shannon Dann 4/08 12:59 pm  
I think if this was an actual team and not just a group chat

 Alexander Aloi 4/08 1:00 pm  
actually true  
  
i mean you can find the files in the tab above

 Shannon Dann 4/08 1:01 pm  
Yeah there is a files tab

Alexander Aloi 4/08 1:02 pm  
eh we'll see how it goes

Thursday, 5 August 2021

Alexander Aloi 5/08 3:54 pm  
done the acceptance criterea for stories #7 #8 #9, will do DODs tonight

Shannon Dann 5/08 4:36 pm  
I just noticed there are two stories that are exactly the same #19 and #18

As a user, I want to cancel my order within 2 hours of purchasing, so I can get a full refund.  
As a user, I want to send a request to cancel my order after 2 hours of purchasing, so I can get a refund.

Shannon Dann 5/08 4:41 pm  
oh wait is one within 2 hours and one after 2 hours have pasted?

Shannon Dann 5/08 4:48 pm  
reading over the user stories it seems like some would overlap/duplicate functionality, im not too sure if i should write up the acceptance criteria or clean up the backlog list

Aili Gong 5/08 4:58 pm  
User should be able to cancel an order within 2 hours, after then user will need to send a request which will be reviewed by admin later. This is my understanding

Shannon Dann 5/08 5:00 pm  
so should i get rid of 23?

and reword one of them?

Alexander Aloi 5/08 5:27 pm  
yeah otherwise its 2 for one

checking the assignment specs in the group files, it seems like it was related to this piece of text  
The booking system has two subsystems (two Web APIs). The first API is for business management, which will allow a business owner to add services, workers, available working hours, and so on. A second API is for Customer to use, to book a service.

6/08 3:46 pm  
Oh yeah

 Shannon Dann 6/08 3:46 pm  
but checking the assignment specs on canvas it seems like that text was removed

6/08 3:46 pm  
that's not needed

The updated the spec

Someone asked about it in the lecture

and they said it was part of the old spec

 Shannon Dann 6/08 3:48 pm  
yeah sounds good, ill just make it red in the backlog and we can remove it once we sorted out the rest of the stories

Hey guys, just wanted to ask your thoughts on this:  
US 18: I want to approve books so that customers can view the book page  
US 19: I want to reject books, so that books that do not exist are not seen by users

Does this mean that whenever a user (business or normal customer) wishes to sell a book, they need admin approval?

There are user stories for adding and editing books already

Alexander Aloï 7/08 8:13 pm  
i think its for people without businesses

lemme check

7/08 8:13 pm  
I can specify it for customers and not business users

which kinda makes sense, you would usually assume a business is legit after you've approved it and they can sell whatever they like

but maybe a regular person selling something needs to be approved first?

Alexander Aloï 7/08 8:15 pm  
yeah thats what id reckon

probably specify it for customers

cant see anything in spec might be blind though

7/08 8:36 pm  1  
alright i changed them to:  
US 18: As an Admin, I want to approve books to be sold by customers so that their used books are listed for selling  
US 19: As an Admin, I want to reject books to be sold by customers, so that fake or invalid books are not listed for selling

- ❑ All team members participate in estimation
- ❑ Every team member independently estimates how Big a task is (e.g., 1, 2, 5, 10, 20 story points)
  - ❑ It's important that everyone has a say in estimating
  - ❑ It's called Planning Poker because many orgs actually use cards with numbers on them: each member picks their estimate on a card and all turn their cards over at the same time
- ❑ The team members with the highest and lowest estimates then justify their estimates: i.e., why they think it's a big or small task
- ❑ The team members discuss until they (hopefully!) eventually agree
- ❑ It can be useful to "benchmark" – e.g., pick what you all agree to be a small story and call it size 2 story points and then estimate compared to that one (exact numbers make no difference, only relative size)
- ❑ When you know team velocity, you can estimate how many PBIs the team can handle in each sprint.

1. team name and names of members
2. a Peer Assessment, for each team member:
  - a. % of contribution (total should add to 100%)
  - b. a LIST of items contributed (e.g., User Story numbers 1-4 and 1-5, Test Cases 4-1-4-5, 5-1-5-4, product backlog grooming)
3. links to GitHub repo and issue tracker (aka board or similar) and to Communication tool (e.g., Slack)
4. minutes of all meetings, including Sprint Planning and Retro, plus logs of other communications (e.g., using Slack) — remember that Module 2 contains suggested templates for minutes for all meeting types
5. Wireframes + User Stories + Acceptance Tests + Product Backlog
6. Any architecture or design description you may want to provide (e.g., REST API design, microservice design) — if you are not at this point yet, you can just ignore this item.
